Notes:

1. In the HBA's BIOS, the HDD slot reads "FF". Per README.TXT OF Adaptec ASA-7085H/ASA-7805H/ASA-70165H/ASA-70165He/ASA-71605H/ASA-71605He SAS Host Bus Adapters, this is a known limitation. Refer to 5.6 "Expander Slot Mapping Issues" of the README.TXT file for details.
2. When installed with 12Gb/s drives, the GUI's Driver speed & Negotiated link speed reads unknown.
3. Does not support Seagate ST6000NM0014 (Enterprise Capacity 3.5", SAS 12Gb/s, 6TB, v4, 6TB, 4K). Per Seagate, 12G / 4K HDD version is only compatible with LSI SAS 2108 RAID on Chip (ROC) or later version.
